

# Valley of daffodils

Україна, Долина нарцисів  
48.17695, 23.3565667

Near the village of Kireschi (five kilometers north of Khust) is the most popular tourist attraction of Khust district - Narcissus Valley. It is the only place in Ukraine for the natural range of Narcissus Narcissus. Since 1978, the Narcissus Valley has been a part of the Carpathian Biosphere Reserve. This alpine flower is common in the Alps, the Balkans and the Carpathians at altitudes above 1000 meters. Here the daffodils grow at an altitude of about 180 meters. More information on the Narcissus Valley blog

## Overview

Type: Park	Intention: Excursion
